

# PlexiDor **No Replacement Flaps**

## *That's Right – No Replacement Flaps!*

### **Shatter Resistant Panels**

Saloon style, shatter resistant dual thermo-pane, hardened acrylic panels do not require costly vinyl replacement flaps. Panels are insulated, lightly tinted yet see-through creating a window for your pet.

### **Heavy Duty Aluminum Frames**

Anodized aluminum interior and exterior frames won't rust, bend, crack, or warp. Attractive silver finish, baked-on white or bronze finish. Extremely durable and look great in your home.

### **Doors Open and Close Easy**

Large and small pets can use the same door. Panels open smoothly with a gentle push and close automatically. Heavy duty springs are concealed within the main frame. Doors close quietly without banging. Won't disturb you or frighten your pet.

### **Maximum Energy Efficiency**

Panels are molded to form a "dual thermo-pane" effect for excellent insulation. High-density nylon pile weather seal provides superior draft-control. Doors close tight to conserve energy – ideal for extreme climates. Saves on your monthly energy bill.
